

PRESS RELEASE

Chenavari Investment Managers signs UN-supported Principles of Responsible Investment

As part of its ongoing effort to foster a culture of responsible investment across the Group, Chenavari Investment Managers today announced that it has signed the United Nations-supported Principles for Responsible Investment (PRI).

The PRI Initiative is an international network of investors working together to put the six principles for responsible investment into practice. The principles, which are voluntary, aim to provide a framework for integrating environmental, social and corporate governance (ESG) considerations into investment decision-making and ownership practices. In implementing the principles, signatories contribute to the development of a more sustainable global financial system. Visit www.unpri.org for more details.

Loic Fery, CEO and Co-CIO of Chenavari, said: “We, at Chenavari, believe that ESG considerations will increasingly drive economies and markets and that global issues and cross-cutting societal concerns such as climate change have ushered in a new era for responsible investment and corporate social responsibility. Becoming a signatory of PRI is a key step of our ESG journey and it reinforces our commitment to integrate ESG considerations in the Group’s investment practices. Joining the PRI Initiative will also help us to continue to educate ourselves within this space and, in turn, we hope these changes will benefit our clients.”

“We are delighted to welcome Chenavari Investment Managers as a PRI signatory”, said Fiona Reynolds, CEO of the PRI. “Their commitment demonstrates the growing awareness and importance of ESG to the investment decision-making process.”

About:

Chenavari Investment Managers
